

7 days, 4,000 frequent flyer miles and 30,240 gallons of water in your house.

Day One: 4,320 gallons of water

Day Two: 8,640 gallons of water

Day Three: 12,960 gallons of water

Day Four: 17,280 gallons of water

Day Five: 21,600 gallons of water

Day Six: 25,920 gallons of water

Day Seven: 30,240 gallons of water*

Even a minor pinhole leak can release a significant quantity of water. Whether the leak is major or minor, the FloLogic System protects your home from costly water damage.

Water damage due to plumbing failures and freezing pipes is the second most frequently filed homeowners insurance claim**. To make matters worse, the high humidity conditions that exist after a water loss create the perfect environment for mold growth, a major source of indoor air problems.

The FloLogic System™ is an automatic water shutoff system designed to minimize or prevent damage caused by leaks in water supply lines and failures in plumbing system components. Unlike other systems, the FloLogic System protects the entire home from a single installation point – to help identify and stop leaks before a small mess becomes a huge problem. As an added advantage, homeowners who install the FloLogic System may qualify for a discount on their insurance premiums.

The FloLogic System will detect and stop problematic amounts of water flow resulting from

- Ruptured washing machine hoses
- Leaking water heaters
- Cracked or improperly installed icemaker supply lines
- Frozen pipes
- Overflowing toilets
- Pinhole leaks in copper pipes
- Failures in plumbing system components
- Accidental water waste, such as a hose left running outside

Some things in your home can be replaced, but many cannot...protect them all with the FloLogic System.

The circuit breaker for your home plumbing system®

Flexible.

The FloLogic System utilizes a sophisticated flow sensor coupled with an intuitive user interface to control a motor-driven ball valve. The valve and flow sensor assembly can be installed in any orientation in both indoor and outdoor environments. The FloLogic System can also be connected to any home security system, alerting the monitoring service when a leak is detected.

Reliable.

The FloLogic System continuously monitors all water coming into the home and detects any unusual flow, 24 hours a day, seven days a week. If water flow exceeds a preset limit, the FloLogic System automatically turns off the water and sounds an alarm at the keypad. The FloLogic System does all of this from a single point in the water main, serving as a first line of defense against water damage.

Customizable.

When the residence is occupied (Home mode), the FloLogic System is preprogrammed to allow 30 minutes of uninterrupted water flow before the shutoff valve is activated. When the residence is unoccupied (Away mode), the FloLogic System allows 30 seconds of uninterrupted water flow. Settings for both modes can be easily changed to correspond with your personal water use patterns.

Standard System Features

- Full-port, low-lead, bronze ball valve construction
- Valve physical attributes: 12 5/8" long x 5" deep x 10 3/4" high; 10.25 lbs.
- Valve can be installed in any orientation in both indoor and outdoor environments
- System features an integrated manual override
- Valve is equipped with 1" fittings and can be easily adapted to 1/2" or 3/4" connections
- Compatible with all domestic water pipe systems
- Flow sensor is capable of detecting water flow at less than 2 ounces per minute
- Battery backup is designed to power the System for up to one week
- Everything needed for the System is included
- Five-year warranty on primary flow path components and one-year warranty on electronics

Accolades

Popular Science honored the FloLogic System with the "Best of What's New" award, which recognizes the 100 best achievements in science and technology each year. The FloLogic System was selected in 2001 by the editors of *Handy Magazine* to receive one of the inaugural *Handy Innovation Awards*. Also in 2001, the FloLogic System was featured in *Fortune Small Business* magazine's annual "Big Idea Issue" and listed as one of the "Top 100 Products" (#55) by *Building Products Magazine*.

Taking the Next Step

The risk of water damage is clear, but so is the solution.

Give yourself peace of mind by protecting your home with the FloLogic System.
